DETAILED ACTION

This office action is in response to the application filed December 8, 2005.

Allowable Subject Matter

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or make obvious placing a layer of thermoplastic material between to mold halves and forming caps when the two halves are brought together and then carrying the caps as an array on the first half and then applying the array using the first half to a wafer.

While forming caps from a material formed on a mold half is known in the art as shown for example in Fujii et al (U.S. 6,429,506) and Ohara (U.S. 5,668,033), the formation of an array of caps are formed by cutting a layer, in contrast to the caps being formed from a layer between two mold halves brought together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art in: Karpman (U.S. 6,448,109), Salatino (U.S.

Art Unit: 2813

5,915,168, Yoshihara et al. (U.S. 5,824,177) and Kurle (U.S. 6,106,735) various methods of forming an array of caps on wafer.
